

CS 6334.001 Virtual Reality Project Proposal

Professor Yapeng Tian
Department of Computer Science
The University of Texas at Dallas

In this project proposal, please describe the following items after reading the project description. Students are encouraged to use LaTeX to write their proposals. A useful online LaTeX tool is Overleaf: <https://www.overleaf.com/>. Here is a suggested [template](#). Another option is to use Word or other text editing tools. Handwriting is not accepted.

For the project proposal, the following content should be included:

- **Title.** Let's give a name to your project.
- **Team Members.** List the names of the team members.
- **Overview.** Briefly define your research problem and describe what do you plan to work on in the project.
- **Relevance to VR.** Briefly justify the relevance of your research project to VR.
- **Related Work.** What have been done in previous research? Please cite and discuss related works. In addition, you need to justify the novelty of your project.
- **Data or Environment.** What data or environment do you plan to use?
- **Framework.** What framework do you plan to adopt to solve your research problem?
- **Implementation Plan.** Please briefly describe your implementation plan.
